Completion of Location Production Expenditure Report

All film production companies are requested to complete a Location Production Expenditure Report after completion of filming. This report provides valuable information about the impact of the said production that will be used to support the work of the Commission

Carnet

Film production or photography companies should obtain an ATA Carnet for their Filming equipment before departure from their country of residence. However, if carried as part of luggage, you will only need to complete an inventory list of the equipment for presentation at Customs.

Copies of Film

After completion of filming activities, production companies are requested to provide the NFC with two edited copies of their product, in whatever format for our archives and records.

We welcome you to Namibia, Africa's best kept secret...
